

GE04 Transport checklist

Company name		Project title	
Location		Contract no.	
Transport			
		Yes	No
1. Have local sensitive areas been identified (such as schools and residential areas)?			
2. Has the location of suitable parking arrangements for private cars and plant been defined?			
3. Has permission been obtained from the Local Authority for any road closures or erection of hoardings on the public highway?			
4. Have local pedestrian diversion routes been agreed with the Local Authority?			
5. Have delivery routes for construction traffic been agreed with the Local Authority?			
6. Have suppliers been made aware of any delivery restrictions and routes?			
7. Are entrance and exit gates on main roads, rather than side roads?			
8. Is there a process in place to keep roads clear of dust and dirt?			
9. Are deliveries scheduled to avoid traffic disruption or queuing outside the site?			
10. Have designated vehicle routes on site been defined?			
11. Are vehicle routes designed to avoid excessive use of reversing sirens?			
12. Have deliveries been organised to avoid times of heavy traffic (for example, school pick up or drop off times)?			
13. Is there a logistics/transport plan that considers efficient transport arrangements (such as the use of consolidation centres or just-in-time delivery)?			
14. Are communication processes in place to keep local residents informed?
