<p>Please note that the <i>Slinger/Signaller – All Types, All Duties</i> standard has been reviewed and revised by the working group. The learning outcomes of the standard have been updated to align with the new learning outcomes introduced in the new Slinger/Signaller standards.</p> <p>In addition, the durations and ratios have been amended. The working group was not comfortable with allocating 14 hours for one-to-one training due to the nature of the learning involved. The focus is on allowing learners sufficient time to absorb the learning rather than concentrating on continuous training time. As a result, both one-learner and two-learner scenarios now require the same total of 21 hours of training.</p>
