

Our Logo

The logo is an important part of the work of the Construction Dust Partnership (CDP). It promotes our aims and objectives. We are proud of it and therefore ask that you treat it with respect.

Use of the logo

The logo is free for existing members of the Construction Dust Partnership to use where the following conditions are met:

- It is used in connection with work that promotes the aims and objectives of the Partnership
- It is accompanied by the following statements:
 - ‘Supporting the work of the Construction Dust Partnership’
 - ‘For more information see the Construction Dust Partnership Website’
- It is only used to promote factual information and not expressions of policy positions by members
- It is not used for commercial benefit or gain
- It is accompanied by the following statement:
 - ‘Third parties who wish to use the logo should meet the above conditions and apply to the CDP for agreement.’

We welcome the opportunity for other non-members to promote the work of the Construction Dust Partnership, though you will need to contact the CDP through a member to seek agreement to use the logo.

Thank you
