

The Industry Competence Steering Group (ICSG)

Competence Frameworks

The following documents that make up the Competence framework:

- 1. **The SKEB Statements** - outlining the **S**kills, **K**nowledge, **E**xperience and **B**ehaviours (SKEB) required to obtain competence in the occupation(s).
- 2. **A Route to Competence** - showing the path (or paths) to obtaining, and then maintaining, individual competence in the occupation(s).
- 3. **An Implementation Plan** - identifying what practical steps are required (as well as a timeframe) to allow every individual in scope to the competence framework to come into compliance with its requirements.

The Competence frameworks have been written in line with BS8670-1:2024 Competence frameworks for building safety which outlines the key components of a Competence Framework.

These include:

- **What Competence is defined as**
- **What Validation and Revalidation looks like**
- **How to maintain and develop Competence over time**
- **Limits of Competence**

Competence Framework Key Definitions

BS8670-1:2024 Defines the key elements of Competence Frameworks as follows:

Competence: application of skills, knowledge, experience and behaviour to achieve a defined outcome

Skills: ability to perform an activity or task consistently with a specific intended outcome

Knowledge: assimilation of facts, theories and practices in relation to a given role, function, activity or task

Experience: participation in relevant activities or observation of facts and events leading to acquisition or improvement of knowledge and skills

Behaviours: observable things that an individual does or does not do

Validation: formal process of assessing an individual's competence against a sector-specific competence framework

Revalidation: formal process of reassessing an individual's competence against a sector-specific framework on a periodic basis to check that competence has been maintained
