

Recommended Qualification Structure for Steelfixing (Construction) Level 2

This structure has been recommended by employers and stakeholders from the above occupational area for organisations to form the basis of academic capability and competence outcomes. Qualifications with a competence outcome at the above level must have units derived from the following National Occupational Standards (NOS) and consist of the mandatory/optional groups as stated.

MANDATORY

- VR641 v2 Conform to general workplace health, safety and welfare
- VR642 v1 Conform to productive work practices
- VR643 v1 Move, handle or store resources

Plus optional (two from the following)

- VR166 v4 Scheduling, dimensioning, bending and cutting of steel reinforcement for concrete
- VR534 v3 Fix steel in situ
- VR535 v3 Prefabricate reinforcement steel sections

(Total 5)

Unit endorsements for Steelfixing Level 2

Where industry requests; qualifications can be endorsed to show an option route and the type of resources and/or activities that relate to the unit. Listed below are the endorsements that can apply for units derived from the following NOS.

NOS	Endorsement
VR166	At least one of the following: Hand bending machines Power bending machines

Note: Where industry requests an Awarding Organisation to further endorse a unit, the Awarding Organisation must first seek approval from the Standards Setting Body to ensure the endorsement is appropriate to the unit.
