

Appendix A – Critical health, safety and welfare images

1.1

Manager

1.2

Supervisor

1.3

Safety manager

1.4

Safety representative

2.1

Address

2.2

Telephone number

2.3

Fax number

3.1

No unauthorised people are allowed on the site.

3.2

Sign the book or swipe the card when you enter the site

3.3

Sign the book or swipe the card when you leave the site

3.4

Drivers sign the book when they enter the site

3.5

Drivers sign the book when they leave the site

3.6

Do not leave the gate open

3.7

Keep the gate locked

3.8

Put a guard (board) on the ladder when work is finished

3.9

Remove the key when the machine is not being used

3.10

Lock dangerous things away when they are not being used

4.1

Car park

4.2

Delivery area

4.3

Storage area

4.4

Do not store gas cylinders on their side

4.5

Gas cylinders must be locked away and stored upright

4.6

No smoking

4.7

Beware of flammable material
(things that can burn easily)

4.8

No naked flames

4.9

Pedestrian (walking) route

4.10

Vehicle route

4.11

Do not walk close to the vehicles

4.12

Keep on the pedestrian walkways

4.13

Private vehicles have priority over pedestrians (people walking)

4.14

Site traffic has priority over pedestrians (people walking)

4.15

Pedestrians (people walking) have priority over private vehicles

4.16

Pedestrians (people walking) have priority over site traffic

4.17

Private vehicles have priority over site traffic

4.18

Site traffic has priority over private vehicles

4.19

Speed limit is 5 miles per hour

5.1

Workers need a skill card to work on this site

5.2

Wear a hard hat

5.3

Wear eye protection

5.4

Wear gloves

5.5

Wear ear protection

5.6

Wear a respirator (gas mask)

5.7

Wear a mask

5.8

Wear a face shield

5.9

Wear safety boots

5.10

Wear high-visibility clothes

5.11

Wear a welding mask

5.12

Wear the correct PPE (protection)
for chipping or hammering

5.13

Wear the correct PPE (protection)
for cutting

5.14

Wear the correct PPE (protection)
for using a grinder (abrasive wheel)

5.15

Wear the correct PPE (protection)
for demolition work

6.1

Escape route arrow

6.2

Sound the emergency horn

6.3

Emergency call point

6.4

Assembly point

6.5

Emergency telephone

6.6

Fire extinguisher

6.7

Fire alarm call point

6.8

Fire hose reel

6.9

Alert other workers if you see a fire

6.10

Alert other workers if you see a flood

6.11

Alert other workers if you smell gas

6.12

Alert other workers of a structural collapse (building or scaffold)

6.13

Alert other workers if you see an explosion

6.14

Alert other workers if you see a bomb

6.15

Do not return to the site after an emergency

6.16

Only return to the site when a supervisor tells you

6.17

Emergency roll call

7.1

An untrained person should not use a fire extinguisher

7.2

Only a trained person should use a fire extinguisher

8.1

First aid

8.2

First-aid box

8.3

First-aid person

8.4

Accident book

9.1

If you have an accident tell your supervisor to write what happened

10.1

Location of drinking water

10.2

Location of microwave (equipment to heat food)

10.3

Location of kettle or urn (equipment to heat water)

10.4

Location of canteen (eating area)

10.5

Location of restaurant (place to buy and eat food)

10.6

Location of toilets

10.7

Wash your hands with soap and water

10.8

Do not make the toilets dirty;
do not make the toilets untidy

10.9

Keep the toilets clean;
keep the toilets tidy

10.10

Use the sun protection cream

10.11

Use the barrier cream
(protect from chemicals)

10.12

Location of changing room and
drying room

10.13

Location of lockers

10.14

Do not make welfare area dirty.
Do not make welfare area untidy

10.15

Keep welfare area clean. Keep
welfare area tidy

10.16

Location of showers

11.1

Risk assessment or method statement (safety instructions)

11.2

Follow the risk assessment or method statement

11.3

Do not leave tools or materials in the work area

11.4

Keep the work area tidy

11.5

Protect other workers if you are doing high risk work (dangerous)

11.6 Specialist

Get a permit to work (permission) before you go into an excavation

11.7 Specialist

Get a permit to work (permission) before work on electrical circuits

11.8

Specialist

Get a permit to work (permission) before you do any hot work (fire)

11.9

Specialist

Get a permit to work (permission) before you enter a confined space

12.1

Only trained people can use a power tool

12.2

Only trained people can use the machinery

12.3

Keep tools locked away when they are not being used

12.4

Do not use 240 volt electric tools

12.5

Only use 110 volt electric tools

12.6

Specialist

Electrical equipment needs an up to date PAT test (safety test)

13.1

Alcohol is not allowed on the site

13.2

Illegal drugs are not allowed on the site

13.3

People with alcohol or drugs will be removed from the site

14.1

Smoking area

15.1

No mobile phones

15.2

No personal music players

15.3

No radios

15.4

Mobile phone area

16.1

Tell a supervisor or safety representative about any problems

17.1

Do not remove scaffold or alter scaffold (metal frame)

17.2

Only trained scaffolders can remove scaffold and alter scaffold

17.3

No fooling or fighting
