Dear ████

Freedom of Information Request: 352021 response to Question 8

Thank you for contacting CITB requesting information under the Freedom of Information Act (FOIA). Your email, dated 29th November 2021, asked for the following information:

8.   How many physical devices (IP's) do you have attached to your network that require monitoring for configuration vulnerabilities?

My response is as follows:

8. The information is dynamic. Depending on how many people are connected at a point in time.

So, as the question states "physical devices", we limit the scope to Printers, desktops and laptops. A Nessus scan is run every month against all network connected devices and the range is between 50 and 120 depending on how many people are in the offices.

If you are unhappy with this response, or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied, then you may apply for an independent internal review by contacting Adrian Beckingham, Corporate Performance Director, CITB, Sand Martin House, Bittern Way, Peterborough, PB2 8TY or email adrian.beckingham@citb.co.uk.

If you remain unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Further details of the role and powers of the Information Commissioner can be found on the Commissioners website: https://ico.org.uk/

Yours sincerely

Jonathan Francis
Information Risk & Data Governance Manager
