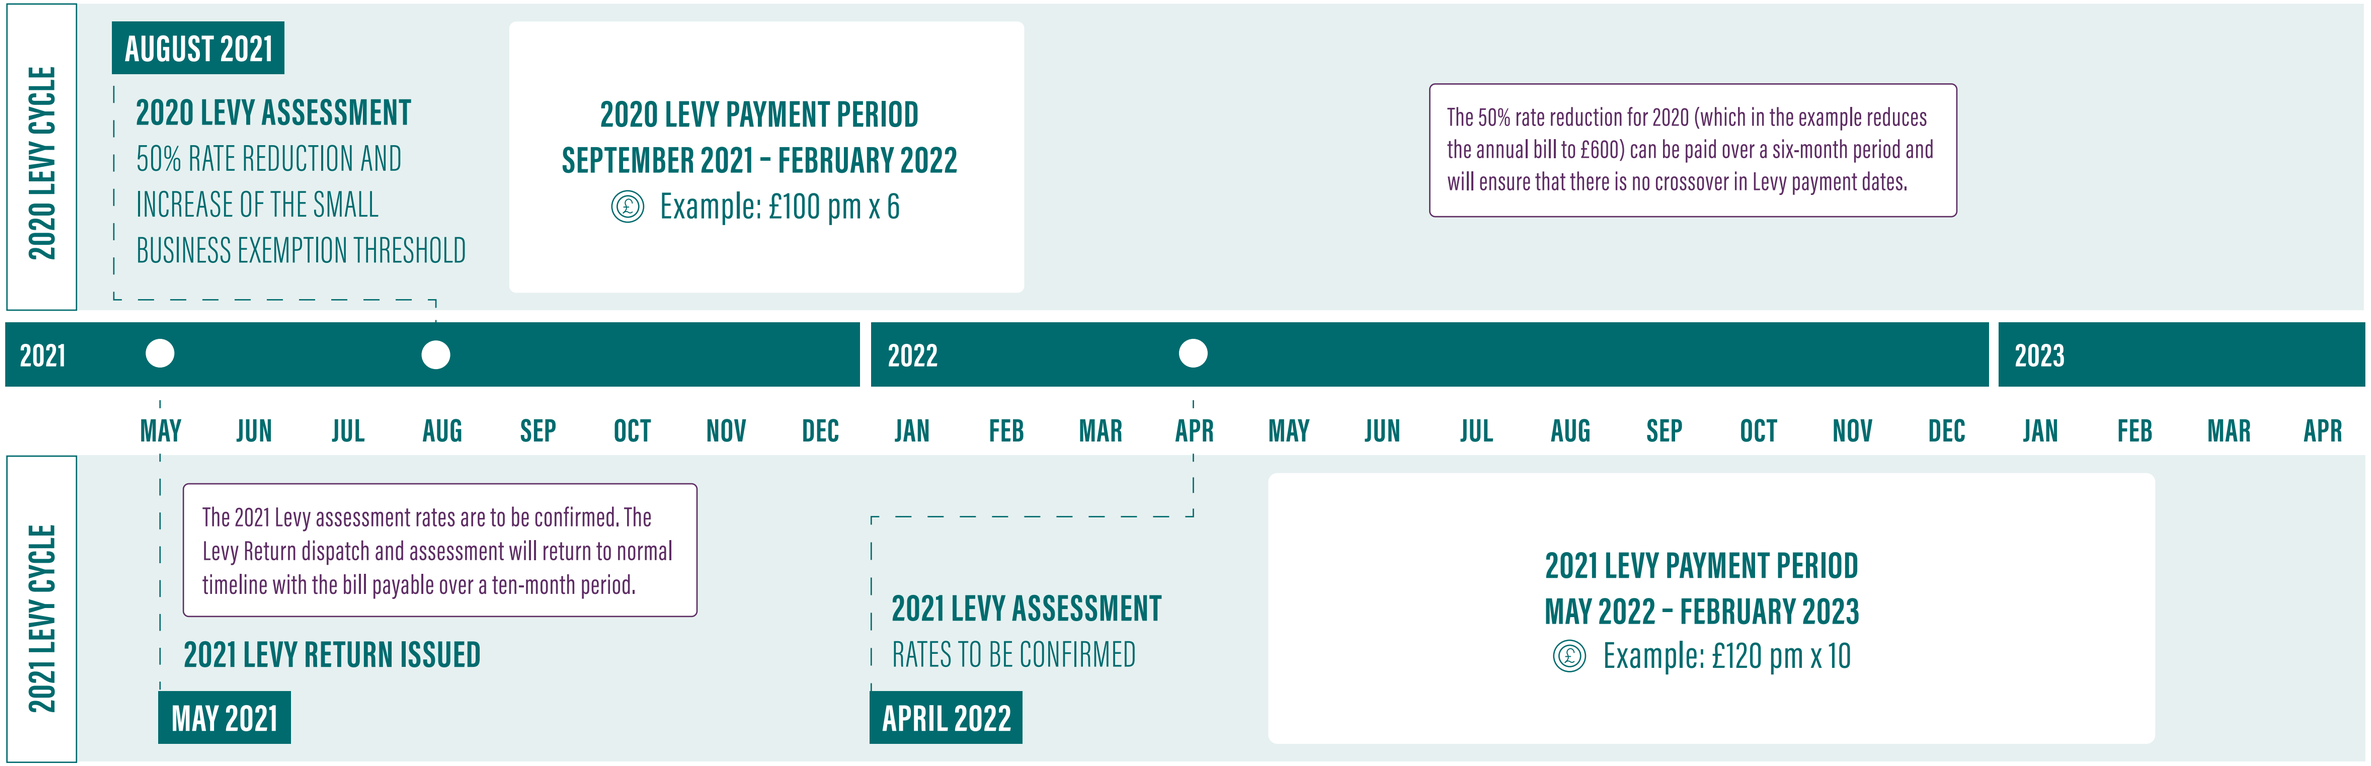
Changes to the Levy Cycle

In recognition of the ongoing challenges faced by the construction industry, CITB delayed payments of the 2019 and 2020 Levy until September of each year to give employers a four-month payment break in 2020. 2021 Levy Return dispatch and Levy assessment dates are now due to return to normal in 2021/22 for the assessment of the period 6 April 2020 to 5 April 2021.



Example: an employer with an average Levy bill of £1,200 per annum

The 50% rate reduction confirmed for 2020 Levy rates will reduce employers average bill of £1,200 to £600 for this year and can be paid over a six-month period. 2021 rates are to be confirmed, but the bill can be paid over a ten-month period.
